

## Boot Dip

Automated Wetted Boot Dip Pan

TECHNOLOGY FOR  
FOOTWEAR HYGIENE

The Wetted Boot Dip Automated Footwear Sanitizing Pan automatically maintains the recommended PPM of sanitizing chemical for effective pathogen removal from footwear. When combined with a CleanTech® Automated Handwashing Station, it provides a full cGMP employee hygiene protocol that is compliant with food safety standards and regulations.

### Features

- Simultaneous handwashing and footwear sanitation provides a full cGMP hygiene protocol in just 12 seconds
- Eliminates the risk of cross-contamination from footwear
- Automatically maintains required PPM concentration of footwear hygiene solution
- Soles-only configuration is compatible with all footwear types
- Depth available to 1/2"

### Compatible With

- CleanTech® EVO One Single-Station Automated Handwashing System

### Interior Rubber Footwear Mat

When ordering, please specify the height of the interior rubber boot mat in order to control the solution depth in the pan.

- 1/8" solution depth, soles-only (#163)
- 1/4" solution depth (#164)
- 3/8" solution depth (#165)
- Custom depth to 1/2"

*Unless otherwise specified, systems will ship with a soles-only mat.*

### Dimensions

Pan with CleanTech® EVO One:  
23" width x 37 1/4" depth  
(58.4 cm width, 94.6 cm depth)

### Hygiene Solutions

This station is designed to consistently and effectively remove pathogens from footwear when used with Meritech hygiene solutions. Use of other solutions will void equipment warranty and result in reduced efficacy.

### Plumbing / Drain

Two 3/4" mail pipe stubs for pan drainage. Floor drain required.

### Highlights

- Quick disconnects for easy cleaning
- Highly visible caution markings for safety
- Equipped with an easy reprime button to refill the pan after cleaning or at start-up
- Integrated handle for draining

Ensures hygiene  
SOP compliance

Removes 99% of  
dangerous pathogens

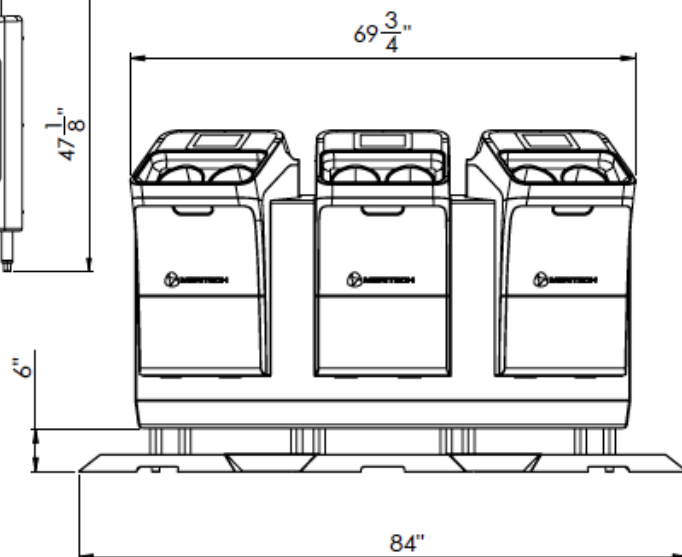

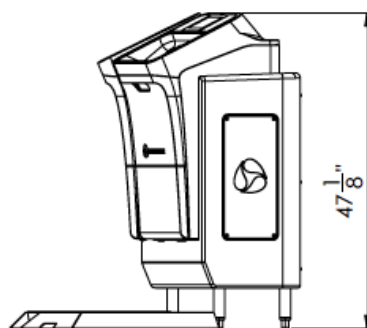

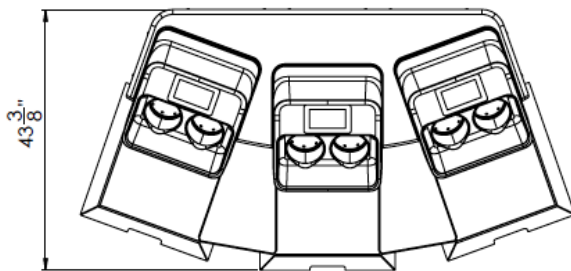

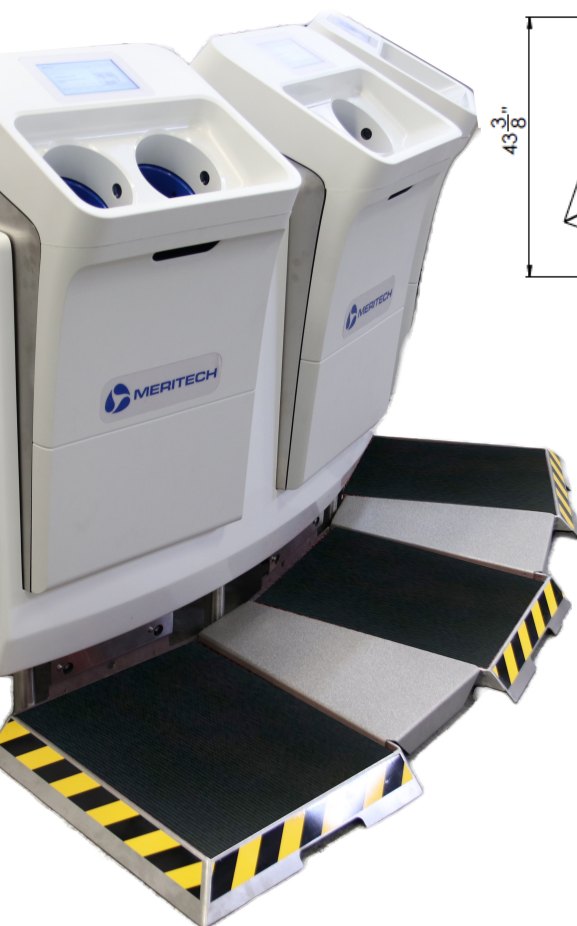

Full cGMP hygiene protocol  
in just 12 seconds
