

CleanTech[®] Automated Handwashing Stations

More effective and efficient than a manual hand wash with a traditional sink

Increase handwash compliance

Eliminates 99.9% of harmful pathogens

Cuts handwashing time in half

CleanTech[®]

VS

Manual Hand Wash

1 STEP

All necessary steps are completed in one 12-second automated hand wash cycle!

- ✓ Consistent handwash every time
- ✓ Precise amount of solution and water delivered
- ✓ Improved compliance with timer and cycle tracking

8 STEPS

- ✗ Variable amount of time and scrubbing
- ✗ Variable amount of soap applied and wasted water
- ✗ Difficult to track compliance

“One of the great things about Meritech systems is it’s very easy. You walk up, stand where you’re supposed to stand, you put your hands in there and it does all the work so you always get the compliance and effectiveness that you’re looking for”
