

SoleClean

Low Moisture Automated Footwear Sanitizing Pan

TECHNOLOGY FOR
FOOTWEAR HYGIENE

The Sole Clean Low-Moisture Automated Footwear Sanitizing Pan effectively sanitizes any style of footwear in just 12 seconds and is suitable for dry or semi-dry production facilities. Our fast-evaporating alcohol-quat sanitizing solution effectively eliminates pathogens from footwear and evaporates quickly post-application to limit the introduction of moisture into production zones. The integration of this automated pan with the CleanTech® 2000S or 4000S Automated Handwashing Station ensures appropriate contact time for footwear and provides a full cGMP employee hygiene protocol that is compliant with all food safety standards and regulations.

Features

- Eliminates the risk of cross-contamination from footwear
- Automatically maintains required kill concentration of sanitizing chemical
- Alcohol-quat blend sanitizing solution evaporates quickly post application to reduce moisture accumulation around the system
- Soles-only configuration for all footwear types
- Available with CleanTech® 2000S, CleanTech® 4000S
- Simultaneous handwashing and footwear sanitizing provides a full cGMP hygiene protocol in just 12 seconds
