Dimensions: 30.25" w x 69.75" l x 47.125" h

Which CleanTech® Station is right for you?

Scan the QR code to the right to take our product selection guiz and find out which CleanTech® EVO Station is the best fit for your business in less than a minute.

Explore the next evolution in automated hand washing

USA-Made and Built to Last

Built with durable and easy-to-clean PC-ABS plastic and stainless steel with an aesthetic design that fits into any commercial or industrial setting.

Better for the Earth

Unlike a manual hand wash, zero water or solution is wasted during a CleanTech[®] automated hand wash. EVO solution cartridges are compact for easy storage and can be sent back to us to be refilled helping to reduce landfill waste and support sustainability efforts.

Customize your hygiene zone with Enhancements

Designing automated hygiene zones for over 35 years

We have over 35 years of experience working with customers to create hygiene zones that reduce pathogen spread and prevent the circumvention of critical hygiene steps. Each hygiene zone that we design is focused around the organization's people, place and product.

Let's create your perfect hygiene zone!

Scan the QR code to the right to learn more about our hygiene zone consultation services and to schedule a design consultation with our hygiene experts today.

Simultaneous Footwear Hygiene

Achieve more than 99% of pathogen removal from footwear during a 12-second CleanTech® hand wash

Sole Clean Sanitizing Pan

Solution evaporates quickly postapplication for dry production areas.

Wetted Boot Dip Pan

Automatically maintains regulatory recommended PPM

Controlled Access Turnstile

Ensure employee hygiene compliance with a CleanTech® controlled access turnstile. The turnstile will not permit entrance to production areas until automated hand wash cycle is complete. Compatible with the EVO One station.

By looking at what product is produced, how the facility is designed and how people are moving thorughout the facility, we can evaluate where

Automated Hygiene in Action

"You stick your hands in and it does all the work for you...The easier you make it, the more fun it is, your employees are going to follow that. That's been really great for us."

"It's all about creating a safe product...We know our people are walking in every day with a clean set of hands and a clean set of footwear...We've incorporated good equipment, good reliability into our facilities and Meritech's a part of our family"

Automated hygiene success stories

We've helped customers across many industries, from food processing to childcare, implement automated hygiene into their business. Scan the QR code to hear their success stories.

Celebrate with Chocolate®

"We have always had to monitor employees and ensure they were spending the appropriate time to clean their hands effectively. I knew we needed a technology upgrade that provides consistent and sustainable results for every employee, every time.

The CleanTech® Automated Handwashing Stations and XBW Boot scrubber allows us to do just that. It has allowed us to keep our promise to our customers to deliver safe, quality food every day, all day."
