

smixin™ Plus

SOAP + WATER = THE ULTIMATE MIX

The Smixin Plus is an innovative soap and water dispenser. It is an extremely eco-friendly solution that supports cost savings through the efficient use of resources. With its modern design and pre-set process steps, it fosters behavior change among users. As a result, hygiene levels are improved within various settings like offices, airports, and schools. The Plus effortlessly retrofits onto any standard sink, offering a seamless and convenient upgrade.

CORE TECHNOLOGY (SMU)

SMART MIXING UNIT (AIR+WATER+SOAP)

The Smart Mixing Unit (SMU) performs a unique emulsion of water, soap and air that ensures instant hand coverage. This makes washing your hands with Smixin as effective within 12-15 seconds compared to the WHO recommended handwashing cycle of 40-60 seconds.*

*Proven by an independent institute ; HygCen

2-IN-1 FAUCET

THE IDEAL HAND WASH IN THREE EASY STEPS

Washing your hands with the Plus takes just around **12 to 15 seconds** and is completely **touch-free**. The sensor recognizes your hands and triggers the handwashing cycle, where the smart mixing unit mixes water, soap, and air to an **all-in-one mixture** that leaves your hands clean and with an incredibly soothing feeling. After the soap emulsion rinsing **water** is dispensed.

STEP 1

Place your hands under the sensor

STEP 2

Wash your hands: a mix of air, water and soap is dispensed

STEP 3

Rinse hands with air and water

Improve hand hygiene with Smixin Plus

The Plus faucet fits on any standard sink (retrofit) making it a perfect fit to improve hygiene levels in public washrooms or other handwashing areas in office and government buildings, cruise ships, healthcare facilities, schools and universities, hotels, family entertainment and recreation centers and more!

Plus retrofit on restaurant sink

Plus on an outside mobile unit

Plus in a large public restroom
