

Hand Hygiene Solutions Compared

UPx

vs

UltraPure

UPx is the latest evolution of our UltraPure hand hygiene solution that is more concentrated and comes in smaller, reusable smart cartridges that communicate with the CleanTech® EVO systems to notify users about refills and reordering instructions.

UltraPure is our original hand hygiene solution that is clinically proven to remove more than 99.9% of harmful pathogens from hands when used with our CleanTech® Classic Automated Handwashing Systems.

BOTH

Protect skin with added moisturizers

Used with CleanTech® to remove more than 99.9% of dangerous pathogens

Used with
CleanTech® EVO

Used with
CleanTech® Classic

More hand washes Less storage space

Since UPx is more concentrated, that means smaller cartridges. A year's supply of UPx is only 12 cartridges and the storage space savings is substantial.

See how a year's supply of UPx cartridges compare to a year's supply of UltraPure bottles!
